PROFESSIONAL EXPERIENCE

Senior WordPress Developer | Effvision (Part-time - Freelance)

Aug 2025 - Present

- Build, customize, and maintain WordPress and WooCommerce websites with a focus on responsive implementation, performance, and production reliability.
- Develop custom functionality and integrations, troubleshoot live-site issues, and optimize existing WordPress builds.
- Collaborate with design and project stakeholders to translate requirements into maintainable web solutions.

Senior WordPress Developer | AAIT Agency

Mar 2022 - Aug 1, 2026

- Progressed from frontend and WordPress development responsibilities into a Senior WordPress Developer role while delivering projects across multiple industries.
- Delivered 50+ WordPress websites and WooCommerce stores using Elementor Pro, custom PHP, ACF, and reusable templates.
- Built bilingual Arabic/English websites with WPML and full RTL/LTR compatibility.
- Developed e-commerce and multi-vendor solutions with payment, shipping, CRM, and third-party REST API integrations.
- Improved website speed and Core Web Vitals through caching, asset optimization, image optimization, and CDN configuration.
- Maintained 20+ live client websites, resolved production issues, applied updates, and supported post-launch operations.
- Collaborated with UI/UX designers and project managers and supported junior developers through implementation reviews.

Frontend Developer Internships | Crazy Idea, Eraasoft & Tak IbdAA

2021

- Built responsive interfaces and strengthened practical experience with HTML, CSS, JavaScript, Bootstrap, and design-to-code implementation.
